THE COMMUNICATION OF THE EXECUTIVE COUNCIL TO THE
CONVENTION OF 1900.

I. Membership. The active membership of the Fraternity on Feb-
uary 1, 1900, was 511, a decrease of 1 since the report of 1899. A
table of membership is annexed.

II. In Memoriam. Death has taken from the Fraternity during
the year Isaac Dayton and Maunsell Van Rensselaer (Theta '38), Theo-
dore Bacon (Beta '53), James K. Hill (Beta '54), William Camac
(Lambda '50), Halsey J. Boardman (Zeta '58), Charles M. Lamson
(Gamma '64), Clarence E. Beebe (Beta '71), and Richard Hovey (Zeta
'85), each of whom, eminent in his profession, well exemplified
the principles of Psi Upsilon. Bros. Boardman and Hovey were the orator
and poet of the Convention of 1894 with the Zeta. Bro. Hovey's Con-
vention poems of '94 (Zeta), '96 (Phi) and '99 (Chi) are among our
classics, and testify to the merit by which he attained his promise and
pre-eminence in American letters.

III. The New Catalogue. The Eleventh General Catalogue of the
Fraternity is now in course of printing. After inviting proposals
from a number of well-known publishers we finally accepted the bid
of the Brooklyn Daily Eagle, of Brooklyn, New York, and believe that
the press-work and binding of the catalogue will satisfy the require-
ments of the Fraternity. It was hoped that the books would be ready
for distribution at this time, but the delay on the part of certain
Chapters in furnishing information has made this impossible, and
the catalogues will be hardly ready until midsummer. Fifteen hundred
copies have been ordered.

IV. A Fraternity Quarterly. At the last Convention a resolution
was adopted by a two-thirds vote of the Chapters that it was the
sense of the Convention that some steps should be taken looking toward
the publication of a Fraternity Quarterly, and requesting the Execu-
tive Council to submit to the Chapters plans for its publication. Be-
fore drafting any plans the Council invited suggestions from all the
Chapters. Eight of the Chapters responded, only six, however, offer-
ing suggestions as to scope and plan. One Chapter expressed doubts
as to the financial success of the enterprise, and another opposed the
publication on several grounds. Thereafter we submitted to the Chapters certain general plans, mainly derived from suggestions made by the Chapters themselves, and urged that the subject be carefully discussed before the Convention met. We respectfully renew to the Convention the request that a matter of so great importance as the establishment and maintenance of a Fraternity magazine be fully considered before final action.

V. Petitions for New Chapters. Petitions have been received by the Council for Chapters of the Fraternity to be established at the University of California, McGill University (Montreal, Canada) and St. Stephen's College, Annandale, N. Y. All the documents relating to the several applications are herewith submitted to the Convention.

VI. Changes in the Council. At a meeting of the Executive Council held April 13, 1900, the resignation of Bro. Francis S. Bangs, which had been tabled since it was offered in May, 1899, was accepted, and Bro. George Henry Fox (Upsilon '67) was chosen in his place.

VII. The report of the Treasurer is presented herewith.

Respectfully submitted,

H. L. Bridgman,
Wm. M. Kingsley,
Frank L. Hall,
Geo. S. Coleman,
Geo. Henry Fox.

Frank L. Hall, Treasurer.
Application of the Alpha Psi Fraternity, University of California.

To the Executive Council of the Psi Upsilon Fraternity:

We, the undersigned, being members of the Alpha Psi Fraternity of the University of California, hereby respectfully petition your honorable body to recommend at the next annual Convention of Psi Upsilon in May, 1900, that we be granted a charter of your esteemed Fraternity.

The following considerations have influenced us in applying for this charter:

1. A close bond of fellowship has grown up among the members of our fraternity, but we feel that isolated and independent of a national organization, which embodies, as does Psi Upsilon, the most stable principles of brotherhood, the fraternal tie which now holds us will necessarily weaken.

2. In the formation of our society it has been our endeavor to secure men who have standing both from their character, culture and scholarship, and it is our desire that it may be perpetuated according to this high standard.

3. The great future of our University and the strong endorsement of members of Psi Upsilon on the coast, cause us to feel that our society can attain to a position worthy of the name of Psi Upsilon.

Willie M. Martin.
To the Executive Council and Chapters of the Fraternity of Psi Upsilon:

We, the undersigned members of the local Fraternity of Alpha Psi, established at the University of California, do hereby respectfully notify you that it is the intention of our society to apply this year for a charter from the Psi Upsilon Fraternity, and this notification is issued in order that you may make any tests or inquiries that you may deem necessary, and in order to supply you with some preliminary information concerning ourselves, our Society, and the foundation for its request.

The members of Alpha Psi have lived together as a society since May, 1898, and have maintained a house during that time. The Society was organized with the fraternal purpose, though not at that time with any intention of affiliating with any national organization. The members were chosen with care, and, we believe, according to the standards of character which Psi Upsilon has kept before itself.

The Society has maintained a house with success, and with every prospect of success in the future. Its standard will compare favorably with the other fraternity chapter-houses of the University of California. The members have proved themselves and their congeniality by living together for nearly two years. At different times three members of the faculty of the University of California have been associated with us and have resided in the house, one of them during the whole period of its existence. These men are not, however, concerned with the application for a charter from Psi Upsilon.

For the scholarly standing of the men, and for information as to their character and standing in the student body, we refer you to the members of Psi Upsilon now in the faculty of the University of California. While scholarship has not been the sole basis upon which our men have been chosen, it has been considered with care in every case.

We ask your consideration of information which may be submitted by ourselves or by the Psi Upsilon Alumni Association of San Francisco, and for the petition which we shall present to the annual convention of the Fraternity.

To the Executive Council of the Psi Upsilon Fraternity:

I wish to certify that the young men who are applying for a Chapter charter of Psi Upsilon in this University are in every way worthy. It would be difficult to find eleven other young men in the institution whose intellectual, moral, and social standing is better. If a charter is to be given to this University at all, it is not likely that at any future time a better body of young men could be got together to receive it.

Yours respectfully,

THOS. R. BACON (Beta of Psi Upsilon),

Prof. Modern European History.

To the Brothers of Psi Upsilon, whom it may concern:

Moved with the desire of an Alumni Association, a large number of the members of the Psi Upsilon Fraternity residing on the Pacific coast met in San Francisco, January 23, 1900. The intention of certain students of the University of California to apply for a Chapter charter of Psi Upsilon, came before the brothers for their consideration. The desirability of establishing such a Chapter, there being no Psi Upsilon Chapter within 2,000 miles, was conceded by all present upon condition that such Chapter could be honorably instituted and worthily maintained. Whereupon Bros. E. M. Adams, P. M. Jones and T. J. Wrampelmeier were appointed a special committee to report at some future meeting upon the subject.

At a subsequent meeting the committee made the following report:

In our judgment the students referred to would make first-rate Psi Upsilon members. A year and a half ago they established a local society called Alpha Psi, and have ever since then maintained a society house.

Their standing in scholarship has been high, and in other respects the members of Alpha Psi have attained prominence among their college fellows and have obtained a considerable share of the honors and positions striven for by the students of the University of California. One of its members is manager of the University track team, which will compete this year in the spring games of the eastern universities. He is also a member of the college athletic committee, holds the position of captain and adjutant in the University Battalions, was Junior President of his class and Junior Day Orator. Another member, at the same time a brilliant philosophical student, played guard on the champion 'Varsity elevens of '98 and '99. He also holds the Hinckley Scholarship. Another of the men was a member of the Carnot Medal Debating team of 1899 and a member of the victorious intercollegiate debating team of the same year. He is the winner of the Carnot Medal for 1900, and has just been elected President of the senior class. Still another was the substitute speaker in the Carnot contest of 1900. Another member of Alpha Psi was the soloist of the University Glee Club last year and is one of the best of the college singers.

We believe that they have material and ability, such that if they are granted a charter, they can in a short time, aided by the influence of our strong alumni on this coast and in the faculty, take a leading stand among the fraternities of the University of California, and built up a Chapter worthy of the name of Psi Upsilon.
We believe that the present high standing of the University of California, and its brilliant prospects for the future, make it worthy of consideration by the Fraternity. It can no longer be urged as an objection that the future of the University is uncertain and that its chances of attaining a high educational standard are unknown. Its future, with its new and able President, magnificent and realizable plans for buildings, and the prospect of splendid private endowment, is now opening with a certainty which leaves no room for doubt. Its educational position is already established and ranks with the best. Financially, it is the richest of all the State universities.

A consideration which will recommend itself to the Fraternity is the strength of our alumni on the Pacific coast, and particularly in the faculty of the University of California. Psi Upsilon men are found prominent in the professions throughout California, and are especially numerous in the cities of the immediate vicinity of the University. The faculty of the University counts seven Psi Upsilon alumni, four of the rank of professor, one associate professor, and two assistant professors. The faculties of the Medical Department and of the Law College each contain a member. The Board of Regents also contains a Psi Upsilon man. No other fraternity can make such a showing among the officers of the University.

The Psi Upsilon men on the coast, for lack of a common center, have fallen away from each other, and unanimously deplore the absence of a California Chapter which might become the rallying place for the fraternity west of the Rocky Mountains. Many of them have sons who may make good Psi Upsilon timber. They are anxious to work for the establishment of a worthy Chapter on this coast, and by reason of their general prominence and influence could give it a powerful backing.

The Pacific Coast Psi Upsilon alumni having perfected their organization under the name and title of Pacific Psi Upsilon Union, duly considered the report presented by the committee and officially and unanimously adopted the same and do hereby urge the Fraternity to grant such a charter, believing it to be for the best interest of our beloved Psi Upsilon. We intend to maintain a permanent organization of Psi Upsilon alumni upon these western shores, which may be depended upon to assist any Chapter which may be established here.

JOHN DEMPSTER HAMMOND (of Pi Chapter),
President.

EDWARD MILLS ADAMS (of Phi Chapter),
Secretary.

April 14, 1900.
We, the undersigned, concur in the recommendation of the Union that a charter be granted to the University of California:

To the Executive Council of Psi Upsilon:

The undersigned urgently request your favorable consideration for the granting of a Chapter of Psi Upsilon to be established at the University of California. For more than twenty years this matter has been brought at times before the Council only to be rejected.

During that time the University of California has advanced and improved until now it is recognized as one of the Great Universities of the United States. One of the strongest arguments we can advance as to the stability of the University of California is the fact that the rich endowment and opening of Stanford University has in no way affected its numbers, the strength of its Faculty or its standing as a university, but rather increased them. This fact alone should convince our Brothers in the East of the rapid growth of the Pacific States. Through the munificence of Mrs. Phoebe R. Hearst the future is assured. In refusing a Chapter to the University of California in 1879, the Council made a mistake, its refusal in 1887 was a greater one, its refusal in 1900 would be the greatest mistake the Executive Council of "Psi Upsilon" ever made.

ENDORSEMENT.

Respectfully transmitted to the Secretary of the Executive Council, inviting attention to the fact that no petition for a Chapter of Psi Upsilon at the University of California has ever been before the Council; that at the time the several petitions referred to were presented to the conventions, the Council had no jurisdiction whatever in the matter, and therefore the censure of the brothers seems to be misdirected; and, further, respectfully suggesting that the communication, with all others concerning the matter, be, as is the uniform custom, transmitted with this memorandum to the Convention with the Pi Chapter, May 10-11.

APPENDIX F.

SIXTH APPLICATION OF KAPPA GAMMA CHI OF ST. STEPHEN'S COLLEGE, ANNANDALE-ON-HUDSON, N. Y.

To the Executive Council of Psi Upsilon:

GENTLEMEN:—The Kappa Gamma Chi of St. Stephen's College, through the undersigned as its special committee, begs the favor of presenting to you the sixth application for a Charter of Psi Upsilon.

We are encouraged to come before you again, in spite of the refusals of past years, because we believe that, inasmuch as the weight of our petition in the estimation of your body, depends upon the status of the College, we can point to a distinct improvement in the condition of St. Stephen's, and we can produce evidence which will indicate a marked advance upon the academic standing of the past.

A new administration was inaugurated last fall, when the Rev. Lawrence T. Cole, Ph.D. (Columbia), was elected Warden. Dr. Cole is one of the youngest college presidents in the country; a man thoroughly equipped for his work, and an excellent administrator.
He has already introduced numerous measures for the upbuilding of the College, and has increased the requirements for admission to the Freshman Class, and has raised the standard of the work throughout the various classes.

Conspicuous among the changes is the removal of the Preparatory Department, which has been a drawback to the College, through the fact that its close association with the College has led to a false impression of its real position. When the present preparatory classes have completed their respective courses, or in June, 1901, the Preparatory Department will cease to exist. There will then remain the usual college course of four years, with such provision as is ordinarily made for special students.

The requirements for admission to the Freshman Class, as now arranged, are equal to the high standard required by the University Board of Regents of the State of New York, and are the same as would be required by any of the large colleges in the country.

The college courses are planned after the latest methods, and are conducted under the most exacting conditions, so that we believe that no just question can be raised against the value of a degree from St. Stephen's College.

Numerous gifts of money have been made to the Board of Trustees for the College, among which has been a gift from John Jacob Astor, Esq., for the re-fitting of the chemical laboratory, and the extension of the work in that department.

We take pleasure in submitting as a part of this petition a copy of the Catalogue of the College, and we respectfully ask a careful perusal of it. It will be found therein that the above facts are sustained, and we believe the fact will be established that St. Stephen's College is not a technical school, but a college of the liberal arts.

We would be grateful for the investigation of the claims that are herein made, and the undergraduate members of the Kappa Gamma Chi stand ready to show every courtesy to any member of Psi Upsilon, whether officially appointed or otherwise, who will be good enough to visit St. Stephen's in order to inspect the College and to become acquainted with the men of the Kappa Gamma Chi.

The undergraduate members of the Kappa Gamma Chi continue to maintain a high standard of admission to their fraternity, and we append to this petition a list of the members, together with the offices that are held by them, which will serve to indicate the leading part they have in all collegiate activities.
The members of the committee desire to thank the members of the Executive Council for their courtesy in the past, and they again beg that a Charter of Psi Upsilon be given to the Kappa Gamma Chi of St. Stephen's College.

Respectfully submitted,
